**Existing Programs**

**Description:** Our company provides online training that helps teachers integrate technology into their curriculum to teach 21st Century Skills. We begin by reviewing the 21st Century Skills with teachers and then teach techniques (ex: WebQuests) where teachers can move from theory to practice and teach 21st Century Skills.

**Highlighted Examples**

Please refer to [www.tlstraining.com](http://www.tlstraining.com) for our approach.

**Implementing ICT and/or Technology Literacy Requirements**

The training helps teachers use technology in their classroom to foster 21st Century Skills. The entire approach helps districts plan for the training to encourage other teachers to follow the leaders.
