Organization's URL: www.vived.com

Existing Programs

Description: vivED provides a free web-based tool to schools to help with the assessment and coordination of education technology initiatives. vivED has also partnered with local Universities on several projects (PT3, TLCF) related to technology leadership, accountability, evaluation, and literacy. Currently, we are working with State Leaders throughout the nation to assist in data collection and analysis as it relates to technology initiatives and Title IID of NCLB.

Highlighted Examples

vivED partnered with the University of St. Thomas (MN) on a TLCF grant to provide leadership training to building principals based on the ISTE NETS*A standards. Also provided training to building teachers based on ISTE NETS*T standards. vivED was a lead evaluator on a PT3 project that provided professional development to teachers on classroom technology integration. This included pre-service and in-service teachers. vivED offers a web-based tool that is currently used to assess various technology initiatives throughout the nation. Can be used to assess state leaders, district leaders, building leaders, teachers/staff, and students. More about the tool: www.vived.com/dashboard
